ABOUT ME

Detail-oriented Front-End Developer with a Bachelor's degree in Computer Science and experience in creating dynamic, user-friendly web applications. Proficient in HTML, CSS, JavaScript, and React.js, with a proven ability to deliver engaging landing pages and responsive websites. Experienced in utilizing API data for real-time functionality and implementing state management with Redux. Strong collaboration skills, complemented by foundational knowledge in Flutter and machine learning. Committed to enhancing user experience through innovative design and high-quality code. Eager to contribute to impactful projects in a fast-paced environment.

EDUCATIONAL QUALIFICATION

Bachelor of Computer Science

Lahore Garrison University | Lahore, Pakistan   2020 – 2024
Courses:
Data Structures & Algorithms, Object-Oriented Programming

WORK EXPERIENCE

Front End Developer (1 month Remote Internship)
Ecodecamp | August 2024

- Collaborate with designers to implement visually appealing user interfaces.
- Write clean, maintainable code using HTML, CSS, and JavaScript standards.
- Optimize web applications for maximum speed and scalability.
- Conduct regular testing and debugging to ensure functionality across browsers.
- Stay updated with emerging web technologies and industry trends.
- Collaborate with back-end developers to integrate APIs and services.

PROJECTS

1. **Food Recipe Website**
   Developed a dynamic site utilizing API data to display recipes, instructions, and ingredients.
   Implemented filtering options to enhance user experience and streamline recipe searches.

2. **Amazon Clone**
   Created a user-friendly e-commerce platform featuring a shopping cart and checkout process.
   Employed Redux for efficient state management, ensuring seamless product addition and removal.

3. **News Website**
   Built a responsive news platform using React, integrating API data for real-time search functionality.
   Designed a user-friendly interface for fetching and displaying filtered news articles.

SKILLS
